Kori Brus

Web Developer

A communications professional launching a career in full stack web development. Proficiency in JavaScript, CSS/HTML and specializing in the React/Redux environment. A natural problem solver and committed learner, I am excited to expand my experience into new applications and challenges.

⚛ PROJECTS

koribrus.io   2022
Portfolio site coded from scratch with a node.js/express.js backend, React frontend, Redux Toolkit state, React Router and API calls to server.
- Intersection Observer for scroll reveal (no libraries)
- Smooth scrolling with custom hooks and CSS keyframes (no libraries)
- Static assets from node.js server

the library   2022
Online library and reader showcasing my personal reading lists. Google Books API with Axios API calls, Redux Toolkit state management and React Framework.
- React image carousel image slider (no libraries)
- Async data calls with Redux Toolkit
- Integrated book reader & modal window with React Portals

koribrus.photography   2021
Personal photography site featuring parallax scrolling, lightbox image showcase, page animations, and responsive layout. Written exclusively in HTML/CSS/JavaScript.
- Parallax scrolling with responsive background image
- Custom layouts for mobile, landscape and web
- PHP contact form
